WVCW available on Cable FM

WVCW, Virginia Commonwealth University's campus radio station, is now offered as part of Continental Cablevision's FM service.

WVCW's format is "Modern Rock" which includes artists such as the Cure, Depeche Mode, EMF and Big Audio Dynamite.

"We are constantly in search for the next big artist, while not forgetting the ones that other stations ignore," said Max Ryder, General Manager. WVCW's programming includes "The Morning Mafia" every weekday from 7-10 a.m., "Club VCW" Friday nights, and jazz, blues and reggae on Sundays.

A weekly countdown of WVCW's current music is featured Friday afternoons at one.

WVCW will be at 105.3 FM on Continental's radio service, and continue to broadcast at 640 AM on campus. For more information, call Max Ryder or Robert Fleskes at 367-1057.
